Improve Your Spanish Pronunciation Skills was designed as a series of modules to introduce Spanish language learners to the most important basic aspects of Spanish pronunciation, to learn how to achieve better results.

On each session learners will focus on a different aspect of the Spanish language sounds with comprehensive information to help you work your way through and also build up in each feature, however, sessions are self-contained modules. This means that when studying on your own you choose the exercises independently and do not need to follow them consecutively but as you find it convenient.
