# Distributing data

*Victor Axelsson*

## **Distributing data** Victor Axelsson

The mechanism of distributing data is becoming a more common scenario as webpages, databases and mobile devices are getting more integrated in transparent distributed systems. Many of the problems are recurring but in different shades and shapes making a general solution hard to implement. This case study brings up a hands-on methodics for dealing with the situations that can and will occur when distributing functionality and data. Hands on techniques with code and reasoning around common problems and how to solve them is presented.
