Shutter Island

Dennis Lehane

Shutter Island Dennis Lehane

The year is 1954. U.S. Marshal Teddy Daniels and his new partner, Chuck Aule, have come to Shutter Island, home of Ashecliffe Hospital for the Criminally Insane, to investigate the disappearance of a patient. Multiple-murderess Rachel Solando is loose somewhere on this barren island, despite having been kept in a locked cell under constant surveillance. As a killer hurricane bears relentlessly down on them, a strange case takes on even darker, more sinister shades?with hints of radical experimentation, horrifying surgeries, and lethal countermoves made in the cause of a covert shadow war. No one is going to escape Shutter Island unscathed, because nothing at Ashecliffe Hospital is remotely what it seems.

Amazon Review

Shutter Island is something of a departure for Dennis Lehane. It is not like the private eye novels with which he made his name and it is not especially like *Mystic River*, his distinguished crime novel about murder, loyalty and revenge. Instead, he gives us a classic of psychological suspense--US Marshal Teddy is summoned to a remote hospital for the criminally insane to look for a missing patient and finds his own future and sanity on the line. It is the 1950s and experiments with drugs, conditioning and brain surgery are all the rage both in the psychiatric profession and in the shadow world of government agencies. Teddy rapidly becomes aware that no-one he is talking to is remotely telling him the truth and that he cannot be wholly sure even of his charming new partner. As the island hospital is isolated by a hurricane, we find ourselves unable to trust a single thing that the narrative tells us--Lehane displays a gift for sleight of hand which is showily disorienting. At the same time, this is not just a box of tricks. We find ourselves caring deeply for Teddy and his partner Chuck, whatever is going on and whoever they really are.--*Roz Kaveney*
Review

“The ride this novel provides is as good as entertainment gets.” (Miami Herald)

“Combines the claustrophobia of . . . Agatha Christie . . . with the creepiness of a good Stephen King yarn. . . . Good luck putting this one down. (San Francisco Chronicle Book Review)

“Startlingly original...instantly cinematic... unfolds with increasing urgency until it delivers a visceral shock in its final moments.” (New York Times)

“There is no mystery...about how good this book is; like *Mystic River*, it’s a tour de force.” (Publishers Weekly (starred review))

“A lollapalooza of a corkscrew thriller...sure to be the most talked-about thriller of the year.” (Kirkus Reviews, starred review)

“Nightmarish...it’s not a book to start before bedtime. Even if you finish before dawn, *Shutter Island* will trouble your sleep.” (Orlando Sentinel)

“Fasten your seat belts for a bumpy, breakneck ride...utterly absorbing... is an express train with no local stops...engrossing.” (Boston Globe) From the Back Cover

Dennis Lehane's masterpiece of mystery and suspense—brought to life for the first time as a graphic novel. In 1954, U.S. Marshal Teddy Daniels and his partner, Chuck Aule, are sent to Shutter Island to find a mass murderer who has escaped from Ashecliffe Hospital, a fortress-like federal institution for the criminally insane. As an intense hurricane bears relentlessly down on the island, the marshals are forced to piece together clues to a shocking puzzle hidden within Shutter Island, taking them on a dark, twisted journey, where paranoia assumes an air of cool rationality and the line between sanity and madness disappears...Filled with his trademark grit, insight, and pathos, *Shutter Island* is vintage Dennis Lehane. Now adapted for the first time as a graphic novel by internationally renowned artist Christian De Metter, this riveting story brilliantly captures our capacity for depravity and deliverance.
